

Cleansers

All SkinTek cleansers have been custom formulated in order to meet the highest of standards.

PRODUCT: SPHERICAL CLEANSER

WHO SHOULD USE IT: This cleanser is designed for oily, acne prone, or combination skin that needs extra cleansing power. Spherical Cleanser is also great for active people who spend a lot of time outdoors or in dusty, dirty conditions. It can be used twice a day on oily skin or once a day (preferably in the shower) on sensitive skin. It is great not only for the face, but the entire body as well.

FEATURES: Hydrogenated Jojoba oil and Chromium Hydroxide Spheres help to exfoliate the skin gently, leaving it visibly clean and refreshed. Grapefruit essential oil is used to detoxify the skin and has antiseptic properties, while the Geranium Extract adds a soothing and calming effect to this unique formula.

PRODUCT: GRAPEFRUIT CLEANSER

WHO SHOULD USE IT: This cleanser can be used on all skin types at any time of day. It is particularly suitable for active people, and individuals with combination skin.

FEATURES: Grapefruit cleanser detoxifies and removes impurities from the skin. While it does not have any grains, it is nonetheless a very powerful cleanser. Its smooth, gel-like consistency purifies the skin and rinses off easily without leaving residue. Grapefruit essential oil possesses antiseptic properties, detoxifies the skin, and gives this cleanser a nice fresh aroma.

PRODUCT: SENSITIVE CLEANSER

Who should use it: Sensitive Cleanser has been formulated for daily use on dry, sensitive and irritated skin.

FEATURES: This luxuriously creamy, soap-free cleanser effectively removes make-up and environmental impurities from even the most delicate skin. It will leave your face feeling smooth, soft, and clean without over stimulation.

Its formula incorporates calming ingredients such as Cucumber, Calendula, Aloe, and Chamomile extracts.

PRODUCT: DAILY MICRO EXFOLIATOR

WHO SHOULD USE IT: It is recommended for daily use in the shower on all skin types. Gentle daily exfoliation is very important in Skin Care Regiment!

FEATURES: Exfoliation is the process of removing dead cells, and this heavily loaded, grainy cleanser does just that. It can be used alone or added to your regular cleanser for individual customization. Be cautious not to use this product too aggressively. Medium size of Polyethylene Beads chosen is important to gentle exfoliation, without damage.

PRODUCT: EYE AND LIPSTICK REMOVER

This is a non-irritating formula that is safe for contact lens users. Apply a small amount on compressed cotton round and gently remove make up and lipstick. Repeat if necessary, using fresh cotton.

TONERS

All SkinTek toners are formulated for compatibility with any SkinTek cleanser. Use these products after cleaning to remove cleanser residue from the skin, and to firm the complexion without feeling too dry. Spray toner on face and remove with sponges.

PRODUCT: DESENSITIZING TONER

WHO SHOULD USE IT: Because of its desensitizing ability, this toner is recommended for oversensitive skin due to exposure to harsh climatic conditions such as strong wind, cold temperatures, and overexposure to the sun. It can also be used as an after-shave for men or for people using Retin-A or AHA products.

FEATURES: When used regularly, this moisture binding complex will relieve dry, chapped skin. This toner has a special Anti-microbial properties of Salicylic and Benzoic Acid, which desensitize and disinfect the skin.

PRODUCT: NORMALIZING TONER

WHO SHOULD USE IT: This Normalizing Toner can be used by all skin types.

FEATURES: This product has a multi-cationic function that prepares and provides substantives to the skin and also provides excellent anti-microbial activity. It demonstrates excellent supplemental cleansing and amazing mildness to the skin and eye area. Aloe delivers calming effect to the skin. Use this toner to sanitize and helps maintain healthy skin.

PRODUCT: OILY TONER

WHO SHOULD USE IT: This is an excellent toner for people with oily skin.

FEATURES: This toner is a compound of various botanical extracts that provide the decongesting action necessary for controlling oily skin. This property is supplemented by glucose derived surfactants to readily solubilize surface oils for easy removal. Also contains Witch Hazel, Watercress Extract, Sage Extract and other beneficial ingredients.

ACTIVE PRODUCTS

ALL PRODUCTS UNDER THIS CATAGORY MAKE THE SKIN EXTREMELY SENSITIVE TO SUN EXPOSURE. DAILY SUNBLOCK USE IS A MUST !!!!!

BENZOYL PEROXIDE:

For a long time Benzoyl Peroxide has been the best medication available to clear and maintain acne prone skin without causing harmful side effects. When used properly it is truly a miracle worker.

Benzoyl Peroxide penetrates the follicle, carrying oxygen to the inflamed site, and killing acne bacteria. It also helps to loosen the impaction. It is most effective when used in different strengths on different areas of the face. For example, the “T” zone will generally require a stronger Benzoyl Peroxide dose than the cheek area. As with any medication, it is absolutely vital that the strength be customized to the individual. Benzoyl Peroxide should be worn daily to prevent new build up. One may experience dryness and sensitivity to the sun while using this product.

SkinTek is a company with special expertise in the use of Benzoyl peroxide. Unlike other companies, SkinTek has Benzoyl Peroxide formulations ranging from 2.5% to 10%. Some formulas also contain sulfur which aids in the clearing process. With such an extensive range of products, virtually every problem for all skin types can be addressed. Each individual BPO is designed for certain areas of the face and you need to consult your skin care specialist to determine what strength is right for you.

GLYCOLIC ACID BOOSTS:

Daily use of one of our three Glycolic Acid Boosts will promote exfoliation, enhances penetration of products, help clear the skin, and make it smooth and soft. All skin conditions can benefit from its use. When first introducing glycolic acid to your skin, we recommend starting with the mildest, Boost #1 for the first 2 weeks. If no problems occur you may advance to Boost #2 and then #3.

These products have been formulated in a liquid form and packaged in cobalt blue bottles as all Glycolic products should be, to avoid exposure to the light.

Boost#1 5% Glycolic Acid, pH 5.2

This is the mildest of SkinTek’s glycolic boosts. It is appropriate for people who have never before used glycolic acid on their skin, or individuals with very sensitive skin. Begin by using this product once a day. If no problem occurs continue use twice a day.

Boost # 2 10% Glycolic Acid, pH 5.2

This boost is the second step in preparing the skin for more aggressive glycolic acid applications. Begin by using this product once a day, and if no problem occurs advance to twice a day.

Boost # 3 10% Glycolic Acid, pH 3.5

When the skin needs an extra boost, this one is the best. Its acidity level is the strongest of the three, so you will definitely feel some “tingling” after its use. We recommend using this product just once a day.

Boost Instructions: After cleansing and toning apply a small amount of boost to a cotton round, making sure it does not drip but cotton is slightly moist. Wipe all over face and neck area.

MASKS

PRODUCT: The Mask

WHO SHOULD USE IT: This clay mask has been formulated for use on oily and combination skin types, and is especially suitable for individuals suffering from acne.

FEATURES: Possessing anti-inflammatory properties, this mask may be used daily on problematic areas.

ACTIVE INGREDIENTS: Ingredients such as Bentonite and Kaolin help absorb excess oils on the surface of the skin, while Sulfur helps to stimulate and heal.

PRODUCT: Eucalyptus Mask

WHO SHOULD USE IT: This mask has been formulated for people who don't need quite as strong of a treatment or clients with more sensitive skin.

FEATURES: It helps absorb excess oil on the surface of the skin, and can be used separately on problem spots. Use daily for better and faster results.

ACTIVE INGREDIENTS: Eucalyptus oil is used for aroma, sterilization and has a cooling effect on the skin.

PRODUCT: SEDATING CLAY MASK

WHO SHOULD USE IT: This mask is for people with sensitive, irritated skin, but who need a more purging and cleansing effect.

FEATURES: Its light and creamy consistency allows this mask to spread easily and set comfortably on the skin. Use daily for faster results.

ACTIVE INGREDIENTS:

PRODUCT: CUCUMBER MASK

WHO SHOULD USE IT: This mask is excellent for skin that has been chemically treated, irritated, or sunburned. It is also recommended for people that are on Accutane or peeling from acne treatments.

FEATURES: This mask has a gel-like consistency and works to soothe, sedate, and desensitize the skin. It also possesses a hydrating ability that makes it great for use on the more sensitive neck area.

ACTIVE INGREDIENTS:

PRODUCT: DOUBLE ACTION MASK

WHO SHOULD USE IT: This mask has been designed for people with non-sensitive skin.

FEATURES: It has an active cooling and refreshing sensation which makes the skin feel alive. *What's the double action?*

ACTIVE INGREDIENTS: Extract of Rosemary and Mint gives this mask fresh and pleasantly refreshing feel on your skin.

CREAMS

PRODUCT: MOISTURE BALANCING CREAM

WHO SHOULD USE IT: This cream has been specially designed for sensitive, irritated or dehydrated skin, but can be used safely on any skin type in combination with any Skintek active product.

FEATURES: It helps to restore and balance moisture of the skin. Apply a thin layer of this product to clean skin, and massage gently to assist absorption. Use it as often as needed.

ACTIVE INGREDIENTS: This cream has been formulated with Allantoin and Panthenol ingredients, which have been proven to deposit and hold moisture in the skin.

PRODUCT: OIL FREE MOISTURIZER

WHO SHOULD USE IT: This moisturizer has been developed for active skin that needs moisture without feeling oily. It is ideal for humid climates and for people with acne who need to balance the drying effect of their medicated products. The most loved cream by men.

FEATURES: It is truly OIL FREE and feels incredibly light and soothing, with a very soft, pleasant fragrance. Apply small amount on cleansed skin day and /or night.

ACTIVE INGREDIENTS: Ingredients such as Panthenol, Retinyl Palmitate, Allantoin, Hyaluronic Acid, and Aloe Vera give this cream priority and success over any other oil free moisturizer, anytime.

PRODUCT: ALOECERAMIDE CREAM

WHO SHOULD USE IT: This silky facial cream is for aging or dehydrated skin that needs more nutrients and protection without feeling oily. It is excellent in any climate.

FEATURES: Lightweight and easy to spread, this cream can be applied over Skintek products such as; Vitamin C Complex, Retinol, Activating Liposome, and Glycolic Boosts, to seal and empower them.

ACTIVE INGREDIENTS: Ceramides have been included in this formula; which are very important for nourishment and anti-aging. Aloe has also been incorporated for its skin healing properties.

Unique Products

VITAMIN C COMPLEX is a free radical scavenger serum that helps rejuvenate skin. It increases the production of collagen, reduces the appearance of fine lines and makes skin feel soft and nourished. As vitamin C is not made by the body, it must be provided to the body on a regular basis. Topical vitamin C plays an essential role in every aspect of the skin's functioning growth, maintenance and repair of connective tissue, protection from free radical oxidation damage, wound healing, collagen synthesis and prevention of premature aging. It is great to use vitamin C after exposure to sun to control the inflammatory response associated with ultraviolet exposure. Can be used for all skin types. Benefits: Free Radical scavenger, light, oil free formula, protects the skin from UV rays, helps dark circles under the eyes and puffiness, diminishes the appearance of fine lines, Skin appears healthy and firm.

CoQ-10 ANTIOXIDANT SERUM - to energize your skin cells

For: Sluggish, tired and not responsive to daily treatment, aging

1/ Moisturizing Vitamin E, gamma Oryzanol from Rice Bran and Plant Oils deliver immediate-replenishing and long term moisture

2/ Antioxidant Coenzyme Q-10 protects skin's surface from damaging environmental radical

3/ A revolutionary Amino-acid-based nutrients boosts skin's natural energy levels for round- the -clock radiance and vitality and better response to other skin treatments

Resulting brighter, healthier skin tone, moist, supple, beautifully well-nourished skin, more youthful, radiant complexion that will resist environmental damage. Can be used day and night on well cleansed skin.

ACTIVATING LIPOSOME COMPLEX

/calming product/

See dramatic improvement in most skin problems within days with the 24 hours

Activating Liposome Complex with Beta Glucan. One to two pumps can be added to your moisturizers also. It feels silky and makes skin feel smooth and nourished.

Supports the skin's own repair processes, fast results, helps to correct red or yellow skin tones, strengthens skin from within and helps to clear blemishes.

SKIN REPAIR GEL

/calming product/

This healing gel has the most powerful ingredients chosen to intensively repair the skin damage. Totally a must after chemical peels, lasers, Retin A and Renova users as well as people using Benzoyl Peroxide, AHA and BHA acids and for sunburned and irritated skin. Containing Liposome and Muccopolysaccharides gives the product power of faster repairing and healing your skin with anti-aging effect. Apply a generous amount of the Gel on cleansed and toned skin, massage throuly until absorbed. You can use any Skintek creams or moisturizers to seal this into your skin. Can be used for men after irritations from shaving. Natural cooling effect helps ingredients to work faster.

AGE-LIMIT SERUM

/Active product pH 3.5/

Minimize skin imperfections, including lines, wrinkles & enlarged pores. Helps to lift discolorations, control breakouts, clogged pores. Skin feels ultra smooth and clean. Non irritating formula suitable even for sensitive skin. White Tea and Sea Whip along with a Brazilian plant complex or Kola, Mate and Guarana that is clinically proven to reduce the irritating effect of AHAS.

Directions: apply to clean, dry skin AM/PM or once a day. Avoid eye area. Follow with moisturizer. Day time always use Sunblock at least SPF 30.

ELIXIR A genuine blend of pure essential oils and are stored in cobalt blue glass bottles for the best quality and storage. Essential oils are very delicate and powerful. Promotes healing for chopped, rough skin and it is non-comedogenic. Ingredients: 100% pure Jojoba Oil, Juniper, Lavender, Lemongrass and Orange essential oils. Can be used on ANY skin type including Acne.

Eye Care

EYE CREAM The eye cream is made for the eye area- which is very delicate and needs to be treated carefully. This eye cream is developed for those living in dry climates and for people with a need for more moisture around eye area. The eye cream is great for dry, sensitive, and mature skin. This cream also helps to protect the skin against moisture loss, and works as a repair system. Eye cream should always be the first step after you have cleansed and toned. This cream gives great protection for people who use Retin A, Alpha Hydroxy acids, Benzoyl Peroxide, and other powerful products. Eye creams are used to protect your delicate eye area and to prevent fine lines.

AHA/VITAMIN C EYE CREAM GEL This product revives the skin's natural moistness and eases the appearance of deeper lines. It is really great for those with more sensitive skin.

Sun Protection

Sunblock is the most important part of a daily skin care regime. Sunblocks which contain Titanium Dioxide like ours, work immediately after applied on the surface of the skin, you don't have to wait 30 minutes before you go out like conventional sun blocks. It acts as a physical barrier that scatters and repels the sun's harmful rays. This sun block prevents sunburn, aging, prevents collagen break down, and pigmentation, brown spots or uneven coloration. Sun block should be a part of your daily routine. Remember you can still get a sun burn even on cloudy days. We here at SkinTek, are convinced that you should not have to reapply sun block during a "normal" day (excluding swimming, exercise, or excessive perspiration, or extremely sunny days.) This sun block is designed to last you the whole day without having to reapply it. SkinTek strongly recommends SPF 30 Sun block, and it is the only strength we carry. The formula is noncomedogenic, oil free, PABA free, and easily spread able with great protection.

SUN BLOCK The Sunblock provides excellent coverage, moisture and protection from the sun and photo damage. It is powerful, but easily distributed and applied.

This Oil Free Sunblock with Titanium Dioxide with SPF 30 provides excellent protection from the sun and photo damage. It has great coverage and also works as a mild moisturizer. This Sunblock is special in the way that it physically blocks the sun's rays rather than chemically like most other sun blocks.

New Anti-Aging Products for 2009

Anti-aging Green Tea Cleanser

Green Tea is an extremely effective antioxidant, seeking and destroying free-radicals as well as releasing polyphenols to energize and revitalize the skin. Green Tea Cleanser is especially formulated for all skin types to cleanse and balance the skin's natural pH level. Small concentrations of glycolic and lactic acids increase the depth of cleansing and promote the natural turnover of the skin's cells. Aloe and Chamomile extracts enhance the nutritional and purifying benefits, providing anti-irritant, anti-inflammatory, and anti-bacterial properties for cleaner and healthier skin. Green Tea Cleanser can be used on its own as a daily cleanser and refresher or as part of an effective skin care regime for more vibrant skin rejuvenation.

Application

Using fingertips apply with a circular buffing motion and gentle pressure. Rinse with water pat dry. Follow up with Green Tea Toner. Skin will be deeply cleansed and appear refreshed with the benefit of natural Green Tea anti-oxidants.

Ingredients

Green tea Extract, Aloe Barbadensis Gel, Chamomile Extract, Deionized Water, Sodium laureth Sulfate, Cocamide DEA, Hydroxyethyl Cellulose, Glycolic Acid, Lactic Acid, Citric Acid, Allantoin, Bisabol, Tocopheryl Acetate (Vitamin E), DMDM Hydantoin, Idopropynyl Butylcarbamate, Yellow 6, Benzophenone-4 Disodium EDTA.

Anti-aging Green Tea Toner

Enriched with nutrients including anti-oxidant Green Tea Extract Polyphenols, Cucumber extract and Aloe Vera extract to help calm, soothe and revitalize the skin.

Application

Apply generously to clean skin. Balances the skin's pH level and energizes the skin's upper layer with Green Tea Polyphenols and nutrients to leave the skin feeling rejuvenated, free of residual oils and firmer.

Ingredients

Green Tea Extract Aloe Barbadensis Gel, Distilled Water, Glycerin, Polysorbate-20, Witch Hazel, Tocopheryl Acetate (Vitamin E), Ginseng Extract, Cucumber Extract, DMDM Hydantoin, Iodopropynyl Butylcarbamate, Disodium EDTA.

POWERPLEXES

Anti-aging Hexapeptide Serum

Relaxes your facial muscles, nourishes your skin cells and moisturizes, making your skin look younger and healthier. Daily application of Hexapeptide Serum can dramatically reduce the appearance of fine lines and wrinkles as well as improve collagen, elastin, and skin firmness. Hexapeptide combines a complex of oglioptides obtained by biotransformation of native proteins (okra) with Acetyl Hexapeptide-3 and Hyaluronic acid. Hexapeptide actually goes further than the other "Botox ® Alternatives", as its

efficacy against mechanical parameters of aging (muscle contractions) is complemented by a biological one (nourishes & moisturizes), offering a non-surgical anti-wrinkle approach to skin care and anti-aging.

Application

Ensure that skin is clean. Apply a few drops of Hexapeptide Serum to your fingertips and gently massage into the skin to be treated (eye area & forehead). Allow to absorb into skin and let dry. Regular moisturizer, make-up or sun protection can be applied after absorption. Apply twice daily for 30 days to achieve best results. Nourishes, moisturizes & firms the skin, penetrating fast into the skin.

Ingredients

Distilled Water, Hyaluronic Acid, Acetyl Hexapeptide-3 (Argireline), Hibiscus Extract, Seaweed Extract (Plankton Extract, Sea Buckthorn Extract, Watercress Extract, Marine Algae), Phenoxyethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glycol.

Anti-Aging Vitamin C 27% Potent

Free radical scavenger in highest concentrated dose of Vitamin C. Excellent for sun damage and wrinkles, nourishing and moisturizing skin. Formulated to reduce signs of aging. Especially recommended for eye and lip area. Shelf life: 2-3 months.

Application

DIRECTIONS: For all skin types. Apply to clean skin and allow to dry. Apply daily and after peel to nourish and moisturize skin. Store in a cool & dark area.

Ingredients

Distilled Water, L-Ascorbic Acid, Green Tea Extract, Orange Extract, Sodium Hyaluronate, Vitamin E, Phenoxyethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glycol.

CREAMS

Anti-aging Hexapeptide Cream

Hexapeptide is a light weight cream that relaxes your facial muscles, nourishes your skin cells and moisturizes, making your skin look younger and healthier. Daily application of Hexapeptide cream can dramatically reduce the appearance of fine lines and wrinkles as well as improve collagen, elastin, and skin firmness. For best results, use Hexapeptide serum or power vitamin C as a base.

Application

Directions: Clean the skin well. Using fingertips apply cream with a circular buffing motion.

Skin appears smoother and more youthful. Dramatic results over a short period of time.

Ingredients

Distilled Water, Jojoba Oil, Apricot Kernel Oil, Squalane, Acetyl Hexapeptide-3 (Argireline), Hibiscus Extract, Hyaluronic Acid, Glycolic Acid, Sodium Lactate, Pyruvic Acid, Laureth-7, C13-14 Isoparaffin, Polyacrylamide, Butylene Glycol, Seaweed Bio-Peptide Extracts, Fragrance, Phenoxyethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glycol.

Anti-aging Hyaluronic Cream

Formulated for all skin types. The unique properties of Hyaluronic Acid make it the ideal anti-aging treatment that is part of a good skin care routine. Hyaluronic is regarded as one of the best moisturizing ingredients available due to its moisture retention properties.

Application

Apply to clean skin can be used day and night time.

Directions: Apply to clean skin and allow to dry. Skin will be hydrated and visibly moisturized. Will nourish and moisturize skin. Apply daily or as directed. Store in a cool & dark area.

Ingredients

Distilled Water, Jojoba Oil, Apricot Kernel Oil, Squalane, Hyaluronic Acid, Laureth-7, C13-14 Isoparaffin, Polyacrimide, Butylene Glycol, Seaweed Bio-Peptide Extracts, Fragrance, Phenoxyethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glycol.

Anti-aging Retinol Cream

Richly textured and quickly absorbed this elegant cream with stabilized Retinol promotes cell turnover and skin rejuvenation. Regular application will result in firmer, smoother, healthier skin.

Application

Apply to clean skin after powerplexes like Vitamin C 27 or Hexapeptide Serum. Not recommended for sensitive skin types. Cell turnover rate will increase leading to an increase in collagen production and softer, younger looking skin.

Ingredients

Distilled Water, Jojoba Oil, Apricot Kernel Oil, L-Ascorbic Acid (VitaminC), Squalane, Hyaluronic Acid, Soy peptide Extract, Retinyl Palmitate (Vitamin A), Laureth-7, C13-14 Isoparaffin, Polyacrimide, Butylene Glycol, Seaweed Bio-Peptide Extracts, Fragrance, Phenoxyethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glycol.

NEW PROFESSIONAL PRODUCT:

Anti-aging and discoloration problem solving AHA Kojic Acid Peel

In-Office peel treatments to even skin tone and discoloration and to jump start a complete skin rejuvenation process. Kojic peel can be performed in combination with a mild facial treatment for a full service procedure. Combination Alpha Hydroxy Glycolic, Lactic and Pyruvic Acids with kojic acid, Bearberry and melanin production to inhibit skin discoloration and melanin production.

Protocol

This AHA 55% Peel should only be used every 2-3 weeks. For best results use with other hyperpigmentation products.

Application

Pre-Peel: Refer to instructions prior to performing a skin peel. Peel: Remove makeup, cleanse and rinse skin. Apply to gauze pad and buff skin in a circular motion. Rinse with water after 1-3 minutes. Can increase application time period as tolerance builds. Post-Peel: Apply PURAMED Hyaluronic Replenisher and Sun Block. CAUTION: Avoid eye area. Discontinue use if excessive redness or irritation occur.

Results

Skin will appear clean, firm, youthful-looking and have a more even skin color.

Ingredients

Distilled Water, Glycolic Acid, Lactic Acid, Kojic Acid, Licorice Extract, Bearberry Extract, Citric Acid, Malic Acid, Sodium Lactate, Sodium Hydroxide, Xanthan Gum, Phenoxyethanol, Caprylyl Glycol, Potassium Sorbate, Hexylene Glycol.

Skin Types

Normal Hyperpigmentation Mature Sun Damage

Accessories

FAN BRUSHES Fan brushes are essential for the application of all our masks. We prefer using a brush for the application, because the brush creates an even layer of mask. It also means you don't have to use your hands to apply it which makes the application more pleasant and avoids wasting the products. It is a quality brush and is just the right size, it is a must! It allows for mask to be applied layer by layer, so application of mask on areas that need double or triple coats is made possible.

SPONGES The sponges are used to remove cleanser and toner. They are used during our treatments and are very helpful at home when doing your home treatment plan. They can be washed in the washing machine, and then dried using the dryer.
